# NEET MDS Answer Key 2024

Question Number	Answer Key
1.	Enlarged lymph nodes in the neck.
2.	Maxillary sinus.
3.	OPG.
4.	Gingival hyperplasia.
5.	Mesial drift.
6.	Endocrine abnormalities.
7.	OPG.
8.	TNM.
9.	Respiratory distress.
10	Neutral zone.
11	Fusobacterium nucleatum and Treponema denticola.
12	Standard deviation divided by the square root of sample size.
13	Oral potentially malignant disorders (OPMDs).
14	Reimplantation.
15	Disruption of fusion of the medial nasal and maxillary processes.
16	Lingual bar.
17	Classification of bone defects.
18	Nitroglycerin.
19	Radiographic appearance.
20	Amiodarone.
21	Myopia.
22	C4-C5.
23	Naloxone.
24	Distal to the site of injury.
25	Hemangioma.
26	Osteoporotic bone.
27	Clostridium perfringens.
28	Candida species.

29	Epidemiological study.
30	Multicystic.
31	Arch bars and intermaxillary fixation.
32	Growth discrepancy.
33	Sarcoidosis.
34	Periodontal ligament.
35	Random DNA damage.
36	Ceramics.
37	Follicular cyst.
38	Mandibular central incisor, maxillary central incisor, maxillary lateral incisor, mandibular lateral incisor, first primary molar, second primary molar, first primary molar, second primary molar.
39	Antiretroviral therapy.
40	Succinylcholine.
41	Spinal accessory nerve.
42	Hospital-acquired infections.
43	Subperiosteal implant.
44	Edge of the ulcer.
45	Salbutamol.
46	Animal models.
47	Osteosarcoma.
48	Embryonic period.
49	Fluoride varnish.
